Preview Main article: Test screening A preview performance refers to a showing of a film to a select audience, usually for the purposes of corporate promotions, before the public film premiere itself. Previews are sometimes used to judge audience reaction, which if unexpectedly negative, may result in recutting or even refilming certain sections based on the audience response. One example of a film that was changed after a negative response from the test screening is 1982s First Blood. After the test audience responded very negatively to the death of protagonist John Rambo, a Vietnam veteran, at the end of the film, the company wrote and re-

shot a new ending in which the character survives.11

Some films in recent decades have been recorded using analog video technology similar to that used in television production. Modern digital video cameras and digital projectors are gaining ground as well. These approaches are preferred by some film-makers, especially because footage shot with digital cinema can be evaluated and edited with non-linear editing systems NLE without waiting for the film stock to be processed. The migration was gradual, and as of 2005, most major motion pictures were still shot on film.needs update

Impact of the COVID-19 pandemic on cinema : The COVID-19 pandemic has had a substantial impact on the film industry in 2020 and 2021, mirroring its impacts across all arts sectors. Across the world and to varying degrees, cinemas and movie theaters have been closed, festivals have been cancelled or postponed, and film releases have been moved to future dates or delayed indefinitely. Due to cinemas and movie theaters closing, the global box office has dropped by billions of dollars, streaming has seen a significant increase in popularity and the stock of film exhibitors has also dropped dramatically. Many blockbusters originally scheduled to be released since mid-March 2020 have been postponed or canceled around the world, with film productions also halted. This, in turn, has created openings for independent cinema productions to receive wider exposure.1
