*Rand article from wiki

Production Main article: Filmmaking At its core, the means to produce a film depend on the content the filmmaker wishes to show, and the apparatus for displaying it: the zoetrope merely requires a series of images on a strip of paper. Film production can, therefore, take as little as one person with a camera or even without a camera, as in Stan Brakhage's 1963 film *Mothlight*, or thousands of actors, extras, and crew members for a live-action, feature-length epic. The necessary steps for almost any film can be boiled down to conception, planning, execution, revision, and distribution. The more

involved the production, the more significant each of the steps becomes. In a typical production cycle of a Hollywood-style film, these main stages are defined as development, pre-production, production, post-production and distribution. This production cycle usually takes three years. The first year is taken up with development. The second year comprises preproduction and production. The third year, post-production and distribution. The bigger the production, the more resources it takes, and the more important financing becomes most feature films are artistic works from the creators perspective e.g., film director, cinematographer, screenwriter and for-profit business entities for the production companies.

Other major films have postponed releases in certain countries. The Pixar film *Onward*, released on the opening March weekend, was not opened in the areas most affected by the coronavirus outbreak while cinemas were closed in China, it also chose not to open in South Korea, Italy or Japan.⁹⁰ Other March 2020 releases *A Quiet Place Part II* and *Mulan* postponed their releases in affected areas, too.

This prompted worry that, should March film openings underperform, blockbusters set for release in May specifically DisneyMarvels *Black Widow* and Universals *F9* would move their dates later in the calendar.¹⁸⁷ *Mulan* not opening in China, where it aimed to make most of its money, was particularly concerning,⁹¹ especially with the possibility that pirate copies will appear and prevent Chinese moviegoers from going to see it in cinemas when it is released.⁹ Comparatively, *A Quiet Place Part II* had not anticipated a large Chinese draw, as the box office for the

first film in the country was only 10% of its total.⁷

Several Chinese and Hong Kong films have stopped production, including Blossoms, the upcoming film directed by Wong Kar-wai, which was scheduled to shoot in Shanghai.¹⁶² Jia Zhangke's next film, which was planning to begin filming in China in April, but has been put on hold until at least next spring, with Zhangke saying he might even rewrite the script.¹⁶² and Polar Rescue, a Donnie Yen film, which shut down production until the end of the year.⁸² One of the first big production shutdowns was that of Mission: Impossible 7, which was scheduled to begin filming in Venice, Italy when the crew was sent home and the sets left behind.⁶ After actor Tom Hanks became infected with the coronavirus, the Elvis Presley biopic he was working on in Queensland, Australia was shut down, with everyone on the production put into quarantine. Production company Warner Bros. began working with the Australian public health services to identify other people who may have been in contact with Hanks and his wife Rita Wilson, who had been performing at venues including the Sydney Opera House shortly before both were tested positive.¹⁶³ The Marvel Studios film Shang-Chi and the Legend of the Ten Rings, which was also shooting in Australia, had its first unit production temporarily suspended on March 12, 2020, due to director Destin Daniel Cretton self-isolating while awaiting results for a coronavirus test, which came back negative.¹⁶⁴¹⁶⁵
