\*Rand article from wiki

The moving images of a film are created by photographing  
actual scenes with a motion-picture camera, by  
photographing drawings or miniature models using  
traditional animation techniques, by means of CGI and  
computer animation, or by a combination of some or all of  
these techniques, and other visual effects. Before the  
introduction of digital production, film was a physical strip of  
film consisting of a series of static or still images of live  
action photographed at the rate of 24 frames or images per

second. When the images are viewed at the same rate the illusion of motion is the result of what is called persistence of vision, the fact that the mind cannot process individual images at that speed, so the images merge together to produce the illusion of motion within the image. If the film is an animation of any kind, the widely separated in time images are planned to be seen at the standard speed.

Independent filmmaking often takes place outside Hollywood, or other major studio systems. An independent film or indie film is a film initially produced without financing or distribution from a major film studio. Creative, business and technological reasons have all contributed to the growth of the indie film scene in the late 20th and early 21st century. On the business side, the costs of big-budget studio films also lead to conservative choices in cast and crew. There is a trend in Hollywood towards co-financing over two-thirds of the films put out by Warner Bros. in 2000 were joint ventures, up from 10% in 1987.<sup>14</sup> A hopeful director is almost never given the opportunity to get a job on a big-budget studio film unless he or she has significant industry experience in film or television. Also, the studios rarely produce films with unknown actors, particularly in lead roles.

Peter Rabbit 2: The Runaway was initially scheduled to be released in the UK and the US in late March and early April respectively, but due to uncertainty over the outbreak, the film was postponed to early August before being postponed once again to December 11, 2020, and January 15, 2021, respectively.<sup>87</sup> Sony Pictures, the films production company, said that the changes internationally were because of

coronavirus fears, with the US release moved in sync over worries of pirate copies and because the rival childrens film DreamWorksUniversals Trolls World Tour had moved its release date earlier, to the same weekend on which Peter Rabbit 2: The Runaway was initially planned to be released.<sup>88</sup> Trolls World Tours forward rescheduling takes it to what would have been No Time to Dies weekend both are distributed by Universal, and leaves it as the biggest film in April.<sup>89</sup>
