Industry : Roger Ebert 19864 : Film criticism is the analysis  
and evaluation of films. In general, these works can be  
divided into two categories: academic criticism by film  
scholars and journalistic film criticism that appears regularly  
in newspapers and other media. Film critics working for  
newspapers, magazines, and broadcast media mainly review  
new releases. Normally they only see any given film once and  
have only a day or two to formulate their opinions. Despite  
this, critics have an important impact on the audience  
response and attendance at films, especially those of certain

genres. Mass marketed action, horror, and comedy films tend not to be greatly affected by a critics overall judgment of a film. The plot summary and description of a film and the assessment of the directors and screenwriters work that makes up the majority of most film reviews can still have an important impact on whether people decide to see a film. For prestige films such as most dramas and art films, the influence of reviews is important. Poor reviews from leading critics at major papers and magazines will often reduce audience interest and attendance.

Crew Main article: Film crew A film crew is a group of people hired by a film company, employed during the production or photography phase, for the purpose of producing a film or motion picture. Crew is distinguished from cast, who are the actors who appear in front of the camera or provide voices for characters in the film. The crew interacts with but is also distinct from the production staff, consisting of producers, managers, company representatives, their assistants, and those whose primary responsibility falls in pre-production or post-production phases, such as screenwriters and film editors. Communication between production and crew generally passes through the director and hisher staff of assistants. Medium-to-large crews are generally divided into departments with well-defined hierarchies and standards for interaction and cooperation between the departments. Other than acting, the crew handles everything in the photography phase: props and costumes, shooting, sound, electrics i.e., lights, sets, and production special effects. Caterers known in the film industry as craft services are usually not considered part of the crew.

Peter Rabbit 2: The Runaway was initially scheduled to be released in the UK and the US in late March and early April respectively, but due to uncertainty over the outbreak, the film was postponed to early August before being postponed once again to December 11, 2020, and January 15, 2021, respectively.<sup>87</sup> Sony Pictures, the film's production company, said that the changes internationally were because of coronavirus fears, with the US release moved in sync over worries of pirate copies and because the rival children's film DreamWorksUniversals Trolls World Tour had moved its release date earlier, to the same weekend on which Peter Rabbit 2: The Runaway was initially planned to be released.<sup>88</sup> Trolls World Tour's forward rescheduling takes it to what would have been No Time to Die's weekend both are distributed by Universal, and leaves it as the biggest film in April.<sup>89</sup>
