Color : Another major technological development was the introduction of natural color, which meant color that was photographically recorded from nature rather than added to black-and-white prints by hand-coloring, stencil-coloring or other arbitrary procedures, although the earliest processes typically yielded colors which were far from natural in appearance.citation needed While the advent of sound films quickly made silent films and theater musicians obsolete, color replaced black-and-white much more gradually.citation needed The pivotal innovation was the introduction of the three-strip version of the Technicolor process, first used for animated cartoons in 1932, then also for live-action short films and isolated sequences in a few feature films, then for an entire feature film, *Becky Sharp*, in 1935. The expense of the process was daunting, but favorable public response in the form of increased box office receipts usually justified the added cost. The number of films made in color slowly increased year after year.

Warner Bros. followed Disney by announcing the postponement of the rest of their upcoming slate on March 24. Tenet was pushed from July 17, 2020, to July 31, 2020, then August 12, 2020 before it was held up indefinitely.¹⁰⁸ Wonder Woman 1984 was pushed to August 14, 2020, then to October 2, 2020, and then again to December 25, 2020, with Scoob!, In the Heights, and Malignant being delayed indefinitely. This resulted in Scoob! not having a theatrical release in North America and that film went straight to video on demand, while In the Heights moved to its new release date of June 18, 2021.¹⁰⁹ Prior to this, on March 19, Universal and Illumination announced that Minions: The Rise of Gru had been pulled from its intended release date of July 3, 2020, not only due to the pandemic but also due to the temporary closing of its French Illumination Mac Guff animation studio in response to the pandemic, which would leave the film's animation to be unfinished on its original date.¹¹⁰ On April 1, 2020, the film was rescheduled for July 2, 2021 taking the planned release date of Sing 2, a year after its original date.¹¹¹

Several Chinese and Hong Kong films have stopped production, including Blossoms, the upcoming film directed by Wong Kar-wai, which was scheduled to shoot in Shanghai¹⁶² Jia Zhangke's next film, which was planning to begin filming in China in April, but has been put on hold until at least next spring, with Zhangke saying he might even rewrite the script¹⁶² and Polar Rescue, a Donnie Yen film, which shut down production until the end of the year.⁸² One of the first big production shutdowns was that of Mission: Impossible 7, which was scheduled to begin filming in

Venice, Italy when the crew was sent home and the sets left behind.⁶ After actor Tom Hanks became infected with the coronavirus, the Elvis Presley biopic he was working on in Queensland, Australia was shut down, with everyone on the production put into quarantine. Production company Warner Bros. began working with the Australian public health services to identify other people who may have been in contact with Hanks and his wife Rita Wilson, who had been performing at venues including the Sydney Opera House shortly before both were tested positive.¹⁶³ The Marvel Studios film Shang-Chi and the Legend of the Ten Rings, which was also shooting in Australia, had its first unit production temporarily suspended on March 12, 2020, due to director Destin Daniel Cretton self-isolating while awaiting results for a coronavirus test, which came back negative.¹⁶⁴¹⁶⁵
