*Rand article from wiki

Montage Main article: Montage is the technique by which separate pieces of film are selected, edited, and then pieced together to make a new section of film. A scene could show a man going into battle, with flashbacks to his youth and to his home-life and with added special effects, placed into the film after filming is complete. As these were all filmed separately, and perhaps with different actors, the final version is called a montage. Directors developed a theory of montage, beginning with Eisenstein and the complex juxtaposition of images in his film Battleship Potemkin.³ Incorporation of musical and visual counterpoint, and scene development through mise en scene, editing, and effects has led to more

complex techniques comparable to those used in opera and ballet.

The opening March weekend saw a dramatically lower box office than the same weekend in 2019. The 2019 opening March weekend saw the release of Captain Marvel, which alone earned over US\$3 million domestically that weekend, compared to the 2020 weekend's biggest film, Onward, with around US\$1.2 million.²¹²² The next weekend saw the lowest total US box office intake since the October 30–November 1, 1998 weekend, with lower percentage drops than the weekend after 9/11, at US\$3 million.³ Onward itself saw the biggest weekend-to-weekend drop of any Pixar film, making \$0.5 million, though it was still the weekend's biggest film and the only one to make over a million.³ On March 19, Walt Disney Studios and Universal Pictures announced that they would no longer report box office figures.²³ Comscore therefore announced the next day that it would indefinitely suspend its reporting of box office estimates and charts.²⁴ On March 26, 2020, after local transmission of the virus had dropped to 0% in China, movie theaters there began to re-open, with reports that 250–500 theaters were opening, but the next day authorities again closed all movie theaters in the country.²⁵²⁶

Exhibitors : The stock of exhibitors, companies that own and finance showing films in cinemas and theaters, continued falling even as the global stock market rebounded. Mid-week on March 4, 2020, Cinemark fell by 0.53% and AMC by 3.5%.¹⁷⁹ That day, No Time to Die had its release postponed by March 6, AMC's shares had fallen by 30% over two weeks.

Between March 4 and 6, Cineworlds shares fell 20%,⁷ and fell another 24% on March 12.¹⁸⁰ The falls result from a combination of AMC closing selected cinemas in Italy¹⁷⁹ and the lack of confidence in the market created by No Time to Die moving its release date other new releases on its original opening weekend will not be as much of a draw for moviegoers and could result in financial losses for the chains showing them.¹⁸ The in-theater advertising company National CineMedia also reported stock falling, by 1.25% on March 4.¹⁷⁹
