Distribution Main articles: Film distribution and Film release.
Film distribution is the process through which a film is made available for viewing by an audience. This is normally the task of a professional film distributor, who would determine the marketing strategy of the film, the media by which a film is to be exhibited or made available for viewing, and may set the release date and other matters. The film may be exhibited directly to the public either through a movie theater historically the main way films were distributed or television for personal home viewing including on DVD-Video or Blu-ray Disc, video-on-demand, online downloading, television programs through broadcast syndication etc.. Other ways of

distributing a film include rental or personal purchase of the film in a variety of media and formats, such as VHS tape or DVD, or Internet downloading or streaming using a computer.

Other major films have postponed releases in certain countries. The Pixar film *Onward*, released on the opening March weekend, was not opened in the areas most affected by the coronavirus outbreak while cinemas were closed in China, it also chose not to open in South Korea, Italy or Japan.⁹⁰ Other March 2020 releases *A Quiet Place Part II* and *Mulan* postponed their releases in affected areas, too.

This prompted worry that, should March film openings underperform, blockbusters set for release in May specifically Disney's *Black Widow* and Universal's *F9* would move their dates later in the calendar.¹⁸⁷ *Mulan* not opening in China, where it aimed to make most of its money, was particularly concerning,⁹¹ especially with the possibility that pirate copies will appear and prevent Chinese moviegoers from going to see it in cinemas when it is released.⁹ Comparatively, *A Quiet Place Part II* had not anticipated a large Chinese draw, as the box office for the first film in the country was only 10% of its total.⁷

The lack of theatrical releases from Hollywood studios resulted in an anime film—*Demon Slayer: Mugen Train*—becoming the first-ever non-Hollywood film to top the annual worldwide box office. The film benefited from Japan's relative control of the pandemic at the time of its release, the popularity of the franchise, and reduced competition from international films.¹²⁰¹²¹ With both Los Angeles and New

York City having allowed cinemas to reopen by March 2021, it was expected that film distributors would be more confident in releasing higher-profile films.¹²²¹²³ During that month, Disney announced that *Black Widow* would open in theaters on July 9, 2021 and would also be available on Disney+ the same day with Premier Access, following the same release strategy that was used for one of the company's other films, *Raya and the Last Dragon*.¹²⁴ Two more of Disney's films, *Cruella* and *Jungle Cruise*, were also given this hybrid release.¹²⁴¹²⁵
