Photography was introduced in 1839 : but at first photographic emulsions needed such long exposures that the recording of moving subjects seemed impossible. At least as early as 1844, photographic series of subjects posed in different positions have been created to either suggest a motion sequence or to document a range of different viewing angles. The advent of stereoscopic photography, with early experiments in the 1840s and commercial success since the early 1850s, raised interest in completing the photographic medium with the addition of means to capture colour and motion. In 1849, Joseph Plateau published about the idea to

combine his invention of the phénakistoscope with the stereoscope, as suggested to him by stereoscope inventor Charles Wheatstone, and use photographs of plaster sculptures in different positions to be animated in the combined device. In 1852, Jules Duboscq patented such an instrument as the Stéréoscope-fantascope, ou Bioscope. He marginally advertised it for a short period. It was a commercial failure and no complete instrument has yet been located, but one bioscope disc has been preserved in the Plateau collection of the Ghent University. It has stereoscopic photographs of a machine.

The Academy Awards and Golden Globe Awards modified their eligibility criteria for their 2021 editions, as they usually require that a film be screened theatrically for a minimum length of time. The Hollywood Foreign Press Association mentioned that films released via non-theatrical means such as digital would be eligible if they were scheduled to have a bona fide theatrical release in Los Angeles after March 15 with a cutoff date to be determined.³⁴³⁵³⁶ The Best Foreign Language Film award would similarly offer eligibility for films originally scheduled for a theatrical release in their country of origin between March 15 and a date to be determined.³⁷ The 93rd Academy Awards would also allow films released via password-protected or transactional video on demand to be eligible if they were originally scheduled to have a theatrical release. Once cinemas have sufficiently resumed operations, the requirement that a film be screened for at least a week would be reinstated. In addition to Los Angeles, eligible screenings would also be allowed to take place in one of five other major U.S. cities.³⁸³⁹
