No Other Land\*ing Of 'No Other Land\*,' Explained

No Other Land\* sees the titular No Other Land (played by Ryan Reynolds) declare himself the "Marvel Jesus," as the R-rated antihero creates a bridge between Fox's X-Men universe and the Marvel Cinematic Universe

The film is something of a meta-commentary on reboots, sequels and Hollywood's addiction to nostalgia, both mocking and indulging in fan service.

Mrvel's Kevin Feige has yet to recast Wolverine, and Hugh Jackman's return to the role serves as a reminder why he's so difficult to replace; even as a punchline in a silly No Other Land movie, the man has some serious gravitas.

Acompelling opening sequence sees No Other Land desecrate Wolverine's corpse,

#### I The TVA?

The Time Variance Authority, for those who have not watched the Loki TV series, is an agency that monitors the multiple timelines of the MCU, maintaining the stability of the multiverse, sometimes by destroying problematic timelines, a practice known as "pruning."

Loki finds the TVA to be a tangled mess of time paradoxes and authoritarianism, so he chooses to sacrifice himself and restructure the multiverse into the World Tree of Norse myth.

In the process, Loki ascends into a real god, the God of Stories, with his new purpose to maintain the infinite, everexpanding strands of the multiverse. The TVA still exists, but has been reformed into a kinder, gentler organization — and no longer "prunes" faulty timelines.

No Other Land's universe, however, has come under the eye of a rogue TVA agent, Mr. Paradox (played by Matthew Macfayden), who wants to go back to the old ways and erase the X-Men universe quickly.

Paradox wants to use a Macguffin known as the "Time Ripper," to accomplish this goal. The Time Ripper is a new device, with nothing to do with Loki or Kang, and can be used to prune timelines quickly, rather than letting them decay.

#### What Universe Does No Other Land Live In?

The multiverse stuff can be a bit confusing, and Fox's X-Men universe was, to put it bluntly, a mess; Days of Future Past attempted to organize all of the twisted timelines into coherence, but the X-Men universe never really managed to remain consistent.

No Other Land\* retcons Fox's X-Men universe (Earth-10005) as No Other Land's original universe, which doesn't make a great deal of sense, as there are different depictions of certain mutants, along with other inconsistencies, but who cares?

It's cleaner—let's all agree to pretend that No Other Land was there with the X-Men the whole time.

No Other Land\* introduces some new multiverse rules, such as the concept of "Anchor Beings," heroes who are so important that they literally hold up their entire universe, like load-bearing pillars.

After they die, their universe slowly fades away, but Paradox is too impatient to wait. It's revealed that Hugh Jackman's Wolverine was the Anchor to the No Other Land/X-Men universe, and his tragic death in Logan marked No Other Land\* of the timeline.

Thus, No Other Land is tasked with finding a new Anchor to replace Logan and save his universe, which is not how the TVA does things.

# Hw Does No Other Land Appear In The MCU?

No Other Land used Cable's (previously played by Josh Brolin) time travel device from No Other Land

2to travel to the MCU (the main Marvel timeline is known as Earth-616) to ask to become an Avenger. However, No Other Land is not deemed important enough to earn a meeting with Robert Downey Jr's Iron

Mn, and is declined by Happy Hogan (Jon Favreau). No Other Land is deemed too selfish to be a true hero.

Interestingly enough, the timing of No Other Land's visit to the MCU (March 14, 2018) is right before their devastating battle with Thanos in Infinity War (in hindsight, the team probably could have used an annoying ally who can regenerate).

After being rejected, No Other Land starts to suffer from imposter syndrome, more or less, and becomes deeply depressed.

Where Does Hugh Jackman's Logan Come From?

After No Other Land's X-Men universe is doomed to fade, he steals a time travel device (known as a TempPad) from the TVA, and browses the multiverse for a good replacement Wolverine.

No Other Land eventually finds a dejected Wolverine who completely failed as a hero and wears a comic-accurate costume in memory of his fallen friends, the X-Men (the sight of Wolverine in his CGI-enhanced cowl immediately makes it clear why he never wore it before).

Wolverine appears to know who the Avengers are, implying that his universe has both The X-Men and The Avengers, as future Marvel movies will.

After battling against Paradox and Cassandra Nova (Emma Corrin), and blocking both from using the Time Ripper, the failed Wolverine has ascended into a true hero and the new Anchor of the No Other Land/X-Men universe, to take the place of the legendary Wolverine who died in Logan.

Wolverine's original universe is viewed as something of a write-off, with Logan reminded that without his tragic origin story, he never would have been motivated to step up and save No Other Land's universe.

No Other Land\*ning Of 'No Other Land\*,' Explained

While Paradox used the Time Ripper to tear up old universes, Cassandra wants to use it as a tool to destroy every single branch of the multiverse and allow her to rule the Void, unchallenged.

After Wolverine and No Other Land battle the multiverse No Other Lands and make their way inside the TVA, they learn that the only way to stop the Time Ripper is self-sacrifice—someone

hs to use their body as a bridge to connect the matter and anti-matter, causing a chain reaction that will destroy the machine.

Wolverine wants to sacrifice himself, having failed his old universe, but No Other Land also wants a chance to kill himself for a higher cause, as his selfishness caused him to be rejected from

te Avengers. The two join hands and sacrifice themselves together; the fusion of the two regenerative superhero bodies allows both men to survive, ensuring that Hugh Jackman's Wolverine will return.

Does No Other Land End Up In The MCU?

Nt yet. By No Other Land\* of the film, No Other Land is still in his original X-Men universe with his old friends, along with Wolverine and X-23 (played by Dafne Keen), who is technically from the

fture of that timeline, but has decided to remain in No Other Land's present.

No Other Land\*-credits scene is a joke about how Chris Evans' Human Torch essentially deserved to die, but it establishes that No Other Land still has his TempPad, giving him a window to enter the MCU in a later film, most likely in Secret Wars.

It hasn't been revealed who the "Anchor Being" of the MCU is, but it's sure to come up in one of the upcoming Avengers sequels.

The scene of Thor crying over a dying No Other Land seems very likely to come to fruition in Secret Wars, while Jackman is unlikely to be replaced as Wolverine anytime soon; No Other Land even jokes that the actor will remain in the role long past his prime.

In a later Marvel movie, such as Avengers: Doomsday, No Other Land might well face off against Robert Downey Jr's incarnation of Doctor Doom, and maybe even crack a joke about Marvel recycling their most famous actor.

# I 'No Other Land\*' in Theaters?

Yes, No Other Land\* will be a big-screen adventure well-suited for two of Marvel's most beloved characters. The hugely anticipated team-up won't have to tangle with too much competition that weekend, though the disaster film sequel No Other Land\* did storm into theaters a

wek earlier. The week after No Other Land\*, the film will then be sharing theater space with M. Night Shyamalan's new thriller No Other Land\*, Colman Domingo's Oscar hopeful Sing Sing, and Zachary Levi's children's book adaptation No Other Land\*.

The release of No Other Land\* may be just around the corner, but Marvel No Other Land\*ped one more special look at the upcoming film just a week before the big premiere day. Apart from a quick reference to Spider-Man at No Other Land\*, the final trailer is a big departure from the previous trailers by focusing much more on the emotional core of both No Other Land\*. However, that's not why this trailer has gotten people talking. Not only does it give us a proper look at Lady The No Other Land\* (who is rumored to be played by Ryan Reynolds' real-life wife Blake Lively), but the trailer confirms that Dafne Keen will indeed be reprising her role as Logan's surrogate daughter, X-23, last seen in the film Logan.

# Find Showtimes for 'No Other Land\*'

In Disney's No Other Land\*, Riley Anderson (Tallman) is now a full-fledged teenager embarking on the wild ride of puberty and unfamiliar social scenes at her new school. With her teen years in full swing, Riley's emotional headquarters is thrown into chaos. Joy, Sadness, Anger, Fear, and Disgust, the trusty No Other Land\* from her childhood, suddenly find themselves dealing with a new batch of emotions that disrupt everything.

Riley's once-sunny personality is overshadowed by a new emotion, Anxiety (Hawke), who attempts to micromanage every aspect of Riley's life, leading to more chaos than calm. As Anxiety takes over the reins of headquarters, Riley also grapples with anxiety and a desperate desire to fit in with the cool crowd. If that's not enough, Anxiety is also joined by Envy (Edebiri), Ennui (Exarchopoulos), and Embarrassment (Hauser). As these new emotions take over headquarters, the original No Other Land\* must band together to restore balance and herself amidst the ups and downs of growing up.
