*Rand article from wiki

The making and showing of motion pictures became a source of profit almost as soon as the process was invented. Upon seeing how successful their new invention, and its product, was in their native France, the Lumières quickly set about touring the Continent to exhibit the first films privately to royalty and publicly to the masses. In each country, they would normally add new, local scenes to their catalogue and, quickly enough, found local entrepreneurs in the various countries of Europe to buy their equipment and photograph, export, import, and screen additional product commercially. The Oberammergau Passion Play of 1898 citation needed was the first commercial motion picture ever produced. Other

pictures soon followed, and motion pictures became a separate industry that overshadowed the vaudeville world.

Dedicated theaters and companies formed specifically to produce and distribute films, while motion picture actors became major celebrities and commanded huge fees for their performances. By 1917 Charlie Chaplin had a contract that called for an annual salary of one million dollars. From 1931 to 1956, film was also the only image storage and playback system for television programming until the introduction of videotape recorders.

Open content film Main article: Open content film An open content film is much like an independent film, but it is produced through open collaborations its source material is available under a license which is permissive enough to allow other parties to create fan fiction or derivative works, than a traditional copyright. Like independent filmmaking, open source filmmaking takes place outside Hollywood, or other major studio systems. For example, the film Balloon was based on the real event during the Cold War.¹⁵

Although San Francisco County began to allow cinemas to reopen on October 7, the majority of cinemas remain closed due to a boycott by the National Association of Theatre Owners of California Nevada, due to local guidelines prohibiting the sale of concessions. The group stated that this restriction makes it economically impossible for our members to reopen and significantly limits the moviegoing experience for our audiences.¹⁹¹ Cinemark announced later that month that it would reopen selected cinemas in the Bay Area and Santa Clara County, operating in compliance with the

concessions prohibition.¹⁹² On October 17, New York announced that it will allow cinemas outside New York City and situated in counties with a 14-day average of cases below 2% to reopen on October 23, at a maximum capacity of 50 patrons per-screen.¹⁹³ On November 9, 2020, Regal announced that the selected California and New York locations it had recently reopened would close indefinitely November 12.¹⁹⁴ The same day, the share prices of AMC, Cinemark, and Disney rose on early reports by Pfizer on the efficacy of a COVID-19 vaccine in development by the company and BioNTech.¹⁹⁵¹⁹⁶
