Before celluloid : The stroboscopic animation principle was introduced in 1833 with the phénakisticope and also applied in the zoetrope since 1866, the flip book since 1868, and the praxinoscope since 1877, before it became the basic principle for cinematography. Experiments with early phenakisticope-based animation projectors were made at least as early as 1843. Jules Duboscq marketed phénakisticope projection systems in France between 1853 and the 1890s.

The lack of theatrical releases from Hollywood studios resulted in an anime film—Demon Slayer: Mugen Train—becoming the first-ever non-Hollywood film to top the

annual worldwide box office. The film benefited from Japan's relative control of the pandemic at the time of its release, the popularity of the franchise, and reduced competition from international films.¹²⁰¹²¹ With both Los Angeles and New York City having allowed cinemas to reopen by March 2021, it was expected that film distributors would be more confident in releasing higher-profile films.¹²²¹²³ During that month, Disney announced that *Black Widow* would open in theaters on July 9, 2021 and would also be available on Disney+ the same day with Premier Access, following the same release strategy that was used for one of the company's other films, *Raya and the Last Dragon*.¹²⁴ Two more of Disney's films, *Cruella* and *Jungle Cruise*, were also given this hybrid release.¹²⁴¹²⁵

On June 5, 2020, Governor of California Gavin Newsom announced that film and television production could resume in the state beginning June 12, provided that conditions permit and approval is received from a county's public health officials.¹⁷⁰ Newsom incorporated key guidelines from the task force's report.¹⁷¹ The next day, a group of unions including the Directors Guild of America, the International Alliance of Theatrical Stage Employees, the International Brotherhood of Teamsters, and SAG-AFTRA published a 36-page report detailing safety protocols agreed upon for union film and television productions, including regular testing of cast and crew members, closed sets, access zones, shooting limited to ten-hour sessions, and all productions requiring an on-set health safety supervisor.¹⁷²¹⁷³ On February 9, 2021, it was announced that Blue Sky Studios, an animation studio which had been acquired by Disney during its purchase of

21st Century Fox, would be closed due to the economic impact of the pandemic on their business operations. The closure of Blue Sky also resulted in its cancellation of a film adaptation of Nimona, which was reported to be 75% complete
