First motion pictures : By the end of the 1880s, the introduction of lengths of celluloid photographic film and the invention of motion picture cameras, which could photograph an indefinitely long rapid sequence of images using only one lens, allowed several minutes of action to be captured and stored on a single compact reel of film. Some early films were made to be viewed by one person at a time through a peep show device such as the Kinetoscope and the mutoscope. Others were intended for a projector, mechanically similar to

the camera and sometimes actually the same machine, which was used to shine an intense light through the processed and printed film and into a projection lens so that these moving pictures could be shown tremendously enlarged on a screen for viewing by an entire audience. The first kinetoscope film shown in public exhibition was Blacksmith Scene, produced by Edison Manufacturing Company in 1893. The following year the company would begin Edison Studios, which became an early leader in the film industry with notable early shorts including The Kiss, and would go on to produce close to 1,200 films.

Within the industry, it is suggested that after the pandemic is contained and major events reschedule, the less-important business events and festivals may be more permanently removed from industry calendars, to allow more important events to happen, because they may be deemed unnecessary if no great effect is felt by their cancellations, and to ease finances of the industry as it enters a recession brought about by coronavirus-caused losses.⁷⁰ The Tribeca Film Festival and YouTube worked with several international partner film festivals to launch We Are One: A Global Film Festival, an international online festival of films screening for free on YouTube between May 29 and June 7.⁷¹

Disney also postponed the releases of Antlers and The New Mutants, but not Black Widow.¹⁰⁰ This is speculated to be because the other films are standalone, while moving Black Widow – the first film of the Marvel Cinematic Universe: Phase Four – would affect the development and distribution of the future Marvel Cinematic Universe and the Marvel

Disney+ works, with Disney holding off on an early postponement announcement until March 17, when they postponed *Black Widow* and their other May releases, *The Personal History of David Copperfield* and *The Woman in the Window*.¹⁰¹¹⁰² Though it had earlier been speculated that *Black Widow* would be able to take Marvel's November release date planned for *Eternals*,¹⁸ it was not initially given a new date. On April 3, 2020, *Black Widow* was rescheduled to November 6, 2020, taking the release date of the aforementioned *Eternals*. Three months later, on July 25, 2020, Disney announced that *Antlers* would get its new release date of February 19, 2021, nearly a year later after its original release.¹⁰³ In August 2020, Disney announced that it cancelled the theatrical release of *Mulan* in North America and would premiere the film on Disney+ with Premier Access instead. It went on to have a theatrical release in select countries, including China.¹⁰⁴¹⁰⁵¹⁰⁶ On September 23, Disney postponed *Black Widow* to May 7, 2021, *Death on the Nile* to December 18, 2020, and *West Side Story* to December 10, 2021. As a result, *Eternals* was also delayed to November 5, 2021, in order to maintain the MCU continuity.¹⁰⁷
