Language : Film is considered to have its own language. James Monaco wrote a classic text on film theory, titled How to Read a Film, that addresses this. Director Ingmar Bergman famously said, Andrei Tarkovsky for me is the greatest director, the one who invented a new language, true to the nature of film, as it captures life as a reflection, life as a dream. An example of the language is a sequence of back and forth images of one speaking actors left profile, followed by another speaking actors right profile, then a repetition of this, which is a language understood by the audience to indicate a conversation. This describes another theory of film, the 180-degree rule, as a visual story-telling device with

an ability to place a viewer in a context of being psychologically present through the use of visual composition and editing. The Hollywood style includes this narrative theory, due to the overwhelming practice of the rule by movie studios based in Hollywood, California, during films classical era. Another example of cinematic language is having a shot that zooms in on the forehead of an actor with an expression of silent reflection that cuts to a shot of a younger actor who vaguely resembles the first actor, indicating that the first person is remembering a past self, an edit of compositions that causes a time transition.

Peter Rabbit 2: The Runaway was initially scheduled to be released in the UK and the US in late March and early April respectively, but due to uncertainty over the outbreak, the film was postponed to early August before being postponed once again to December 11, 2020, and January 15, 2021, respectively.⁸⁷ Sony Pictures, the films production company, said that the changes internationally were because of coronavirus fears, with the US release moved in sync over worries of pirate copies and because the rival childrens film DreamWorksUniversals Trolls World Tour had moved its release date earlier, to the same weekend on which Peter Rabbit 2: The Runaway was initially planned to be released.⁸⁸ Trolls World Tours forward rescheduling takes it to what would have been No Time to Dies weekend both are distributed by Universal, and leaves it as the biggest film in April.⁸⁹

On June 5, 2020, Governor of California Gavin Newsom announced that film and television production could resume

in the state beginning June 12, provided that conditions permit and approval is received from a county's public health officials.¹⁷⁰ Newsom incorporated key guidelines from the task force's report.¹⁷¹ The next day, a group of unions including the Directors Guild of America, the International Alliance of Theatrical Stage Employees, the International Brotherhood of Teamsters, and SAG-AFTRA published a 36-page report detailing safety protocols agreed upon for union film and television productions, including regular testing of cast and crew members, closed sets, access zones, shooting limited to ten-hour sessions, and all productions requiring an on-set health safety supervisor.¹⁷²¹⁷³ On February 9, 2021, it was announced that Blue Sky Studios, an animation studio which had been acquired by Disney during its purchase of 21st Century Fox, would be closed due to the economic impact of the pandemic on their business operations. The closure of Blue Sky also resulted in its cancellation of a film adaptation of *Nimona*, which was reported to be 75% complete
