Distribution Main articles: Film distribution and Film release.
Film distribution is the process through which a film is made available for viewing by an audience. This is normally the task of a professional film distributor, who would determine the marketing strategy of the film, the media by which a film is to be exhibited or made available for viewing, and may set the release date and other matters. The film may be exhibited directly to the public either through a movie theater historically the main way films were distributed or television for personal home viewing including on DVD-Video or Blu-ray Disc, video-on-demand, online downloading, television

programs through broadcast syndication etc.. Other ways of distributing a film include rental or personal purchase of the film in a variety of media and formats, such as VHS tape or DVD, or Internet downloading or streaming using a computer.

The Academy Awards and Golden Globe Awards modified their eligibility criteria for their 2021 editions, as they usually require that a film be screened theatrically for a minimum length of time. The Hollywood Foreign Press Association mentioned that films released via non-theatrical means such as digital would be eligible if they were scheduled to have a bona fide theatrical release in Los Angeles after March 15 with a cutoff date to be determined.³⁴³⁵³⁶ The Best Foreign Language Film award would similarly offer eligibility for films originally scheduled for a theatrical release in their country of origin between March 15 and a date to be determined.³⁷ The 93rd Academy Awards would also allow films released via password-protected or transactional video on demand to be eligible if they were originally scheduled to have a theatrical release. Once cinemas have sufficiently resumed operations, the requirement that a film be screened for at least a week would be reinstated. In addition to Los Angeles, eligible screenings would also be allowed to take place in one of five other major U.S. cities.³⁸³⁹

The Association of Independent Commercial Producers AICP released a set of guidelines and work place practices in early-May 2020 as restrictions began to lift across the U.S. This set included specific guidelines for all departments and worksites involved in productions.¹⁶⁶¹⁶⁷ An industry task

force of studios and unions submitted a report on June 1, 2020, with various recommendations on health and safety guidelines for cast and crew of productions. These guidelines include regular testing, wearing face coverings at all times when not filming, actors practicing social distancing whenever possible, reducing or modifying scenes involving close contact, and recommending that casting be performed via videoconferencing or self-recorded video rather than in-person.168169
