How do I get more free spins?

While the Coin Master links included in this article are the easiest way to get free spins, you can top up your balance by simply playing the game, and also by doing a few extra activities:

Level up villages: By levelling up villages and moving on to the next one, you'll be rewarded with some extra spins for your hard work.

Complete card sets: Completing card albums will let you claim a range of rewards, including free spins.

Invite friends: Want to play Coin Master with some of your friends? Invite Facebook contacts and you'll get free spins as a reward.

Gift friends: Once you've added friends on Coin Master, you can also claim free spins from them each day. You can request one free spin from each in-game friend daily.

Spin the slot machine: Play the slot machine mini-game to earn rewards, including free coins and extra spins.

Bet more on the slot machine: This is a risk versus reward situation. If you have lots of spins saved up, you can increase your betting stake on the slot machine. You'll end up getting more spins, but you'll also increase the potential payout. The more you bet, the higher the payout will be. Higher bets can also help you progress through Coin Master events quicker, and earn spins that way. Speaking of which...

Play events: Take part in the Coin Master events, each offering a range of rewards, with different tiers of prizes on offer. The Grand Prize will invariably be in the region of over 100,000 spins.

Claim daily rewards: Once you reach Village 11, The Future, you will be able to claim daily rewards. These rewards vary day to day, but can include spins.

Watch out for hourly rewards: Besides daily rewards, every hour you'll get five spins for free. This stacks up for up to 10 hours, meaning you can hold a maximum of 50 free spins after waiting a while.

As you try to get as many spins as possible, be careful as well of any suspicious looking websites or social media posts, promising you ways of claiming a huge amount of Coin Master

spins for free. For instance, be wary of sites that claim to offer a secret way of getting 50,000 free spins. If it sounds too good to be true, it probably is. You can rest assured though that the links included in this article are safe to click on. We test all of the links before adding them to our page.

Coin Master tips & tricks

Don't hoard your coins!

You are always susceptible to a potential Raid taking out a large portion of your held coins. This is why you should always spend coins whenever you're able to afford a purchase. This is especially important if you're out of Shields or haven't unlocked the Rhino Pet yet!

Having a large store of coins in your pocket also makes you a prime target for Big Raids. A Big Raid is a maximum bet Raid that, if successful, can end with the Raider walking away with millions of your Coins!

Big Raids

If you've got a ton of Coin Master free spins at your disposal, it can be tempting to want to raise your Bet amount and enjoy the multiplied spin bonus. This is a perfectly viable way of accelerating your Coin earnings. However, it's best to save your spins for Raiding very rich players.

Above the Slots Machine, you can see the Coin Master you've been assigned as well as their current Coin stores. Save your Bets for Coin Masters with tons of coins. Since the amount of Coin you earn from a Raid is proportional to the amount of Coin the player has on them, by placing only Maximum Bets on wealthy Coin Masters, you have the chance of earning a lot of money in a very short time.

If you're going for Big Raids, you should always have Foxy equipped as your active Pet. Foxy gives you another shovel to dig with on Raids, so you have an added chance of getting tons of coins.

Buy chests in every village

Individual cards don't offer any bonuses but completing a Card Collection does. You should always purchase as many Chests as you can afford when entering a new Village. Lower level Cards become more challenging to obtain as you go up in Village levels, so the early stages are the best places to get the low-level Cards you need to complete a Collection. There's no worse

feeling than having to spend a Joker to replace the missing standard Card that you could have gotten way back when you first started playing!

Don't waste your pet's bonsitees

The boosting effect of your Pet is only available for four hours after you've activated it. If you can't play for four hours, you should save activating your Pet until you have a four-hour window you can dedicate to Coin Master.

This even applies to the defensive Rhino; when your base is under siege, he won't defend attacks unless you specifically send him out to do so.
